

FATHER YORKE ENDS CARMEN'S TROUBLES

WILL NOT CALL STRIKE

Company and Men Come
to Terms on Important
Issues.

SAN FRANCISCO, MAY 1.—THERE WILL BE NO STREET CAR STRIKE IN THIS CITY. THE WHOLE BUSINESS IS PRACTICALLY AMICABLY SETTLED.

FATHER P. C. YORKE, PASTOR OF ST. ANTHONY'S CHURCH IN EAST OAKLAND, FRIEND OF THE LABORING MAN AND ADVISOR OF UNION MEN, SETTLED THE WHOLE BUSINESS. HE WAS THE MAN BEHIND THE STREET CAR LEADERS.

FATHER YORKE HAS BEEN CONSULTING WITH THE CARMEN'S UNION LEADERS AND HE HAS GIVEN THEM THE BEST OF ADVICE.

AS A RESULT THE MEN AGREED TO COMPROMISE WITH THE UNITED RAILROADS AND EVERYTHING WILL BE ARRANGED IN A HARMONIOUS MANNER.

CONCESSIONS ARE TO BE MADE TO THE MEN AND THE MEN WILL MAKE CONCESSIONS TO THE RAILROAD.

The men did not adjourn at their meeting until daylight. No strike vote was taken. There was much discussion among the men but no strike seemed to be favored.

The Oakland scene was the cause of much debate.

At the end it was decided to let Father Yorke decide the whole business.

WE ARE
GOING TO
BE FAIR

SAN FRANCISCO, May 1.—At 2:30 this afternoon Patrick Calhoun, president of the United Railroads and Thornwell Mullaly, resident head of the corporation went into session with an executive committee of the Carmen's Union, to discuss the possibilities of compromising the situation and thereby reach some final decision regarding the long threatened car strike. The system employed by the Traction Company of Oakland was the topic of discussion when THE TRIBUNE went to press and at 3 o'clock no decision had been reached.

The car men are willing to accept a wage scale and hour schedule similar to that paid and endorsed by the Oakland Traction Company, and are willing to submit to minor modifications.

Neither side was willing to say just what position they intended to take, but it is assured that the United Railroads will not recede from their present position unless the Carmen's suggestions present some feature of value to both sides.

"We will meet an executive committee of the Carmen's Union at 2:30 this afternoon, and I understand that it is their intention to submit to us a plan similar to that which is employed by the Oakland Traction Company," said Patrick Calhoun to a TRIBUNE reporter this morning, "but further than this I have nothing to say."

THEY HAVE ALSO STRUCK.

The officials of the Carmen's Union were even more reticent, but displayed greater confidence in a satisfactory settlement of their difficulties than they did yesterday.

IRON WORKERS GO OUT ON BIG STRIKE

Machinists, Moulders and Pattern Makers Demand an Eight Hour Day—Affecting All of Alameda County.

BERKELEY, May 1.—Several hundred moulders, machinists, and pattern makers working in the shops of the Judson Iron Works at Emeryville, walked out this morning to enforce the demand for an 8-hour day with the minimum wage scale of forty-four cents per hour. This company employs 650 men, being the largest plant on this side of the bay, and the walkout of the men leaves only four companies in operation in West Berkeley.

The A. C. Macaulay Foundry company of West Berkeley, or members of the metal trades association, and are governed by that organization's decisions. The executive committee of the metal trades association met last Monday evening in the Appraisers building at Fourth and Market streets, San Francisco, and decreed that all firms bound by its decisions, should not conform to the 8-hour demand.

THE PROTEST.
Mr. Downey led the way. "The Twelfth street merchants," he declared, "have been placed at a disadvantage by the outrageous and extra legal steps taken by the city's executives. We have learned that we are forced but which should be enforced, laws that are enforced that should not be enforced, but should be repealed, and we have the spectacle of a law that does not exist, that has no basis in resolution or due legal process, being rigidly enforced to the bitter limit.

Officers and Men of Gunboat Tacoma Attacked in
Santiago—Washington Is Mystified
by the Incident.

WASHINGTON, May 1.—The Navy Department has received a cablegram from Commander Wood of the Dixie at Havana, transmitting a report from Commander Tappan of the gunboat Tacoma now lying at Santiago, Cuba, stating that trouble had occurred between some of the sailors of the ship on shore leave and the local authorities.

While a full report of the affair at Santiago is not at hand it is learned

at the Navy Department that Commander Tappan has cabled that ten of

the personnel of the Tacoma were in-

jured in the attack by the police at Santiago. These were:

TWO KILLED, ONE HURT, BY POWDER EXPLOSION In Mixing House No. 1 at Pinole

PINOLE, May 1.—There was a dynamite explosion at the powder works here at 8:45 this morning and two Chinese were killed and one white man injured. The gelatine mixing house No. 1 was blown to atoms. The building was a small one and only a few men were employed in it and this is the reason why so few were injured.

PANIC-STRICKEN WOMEN LEAP TO DEATH FROM SECOND STORY

Fire in Chicago Lunch Club Excite the Patrons to Frightened Frenzy.

CHICAGO, May 1.—Twenty women were injured in a fire that broke out today in the building at 255 Wabash avenue. The first floor was occupied by the Story & Clark Plane company and the three upper floors by the Lotus Lunch club, patronized exclusively by women.

When the flames were discovered 200 women, including the employees, were in the place, and at the first cry of fire, panic ensued. A number of women leaped from the windows of the second and third stories. By far the greater number, however, rushed to the fire escapes. Those were filled in a few seconds with a struggling mass of women, making desperate efforts to climb down. Several of them lost their holds and fell to the street and others were pushed off.

The flames started in the basement and ran up an elevator shaft with terrific speed, cutting off several women in the front part of the building. Two-thirds of these, despite the warnings of the

So Salsbury Wants to Have East Oakland Property Deeded Back.

L. L. M. Salsbury commenced action in the Superior Court this morning to have three lots of the Trumbull tract in East Oakland deeded to him from J. Stanley Burge and William Neece, who held the property to March 7, 1908, but who have not paid the balance of \$3750 on the \$4000 purchase price. Salsbury claims he has offered the \$250 already paid him in the land and will not accept it. Burge and Neece will not agree to, so the courts are asked to take a hand in the matter of restoring the title and setting the price that Salsbury must pay if he wants to regain the East Oakland property.

The complaint filed this morning states that Salsbury originally sold the lots to William Neece, and payments were to be made on the installment plan.

When Salsbury took over the debt and promised to keep up the payments. He has been

delinquent in meeting the demands of Salsbury and will not consider a proposition to return the premises to their original owner.

Mrs. Cecilia Malaney, one of the proprietors of the lunch parlors, was rescued by a fireman from one of the rear windows. Mrs. Malaney declared that at least one employee, Miss Mary Studebaker, and several patrons of the place, had lost their lives either by suffocation by smoke or in the flames. The firemen could find no bodies in the building to substantiate the story of Mrs. Malaney, but for a considerable time after Mrs. Malaney was taken out, the flames prevented a thorough search of the building. The woman is positive in her assertion that several persons could not have escaped.

SAILORS SHOT

(Continued from Page 1.)

They have had a happy evening ashore and on returning to their ship.

In almost all large ports, unless the men are absolutely disorderly or are destroying or interfering with citizens, the police let them proceed on their way without molestation beyond, perhaps, a friendly warning to refrain from disorder.

ALWAYS A CUSTOM.

So far as the naval officers here know, this has been the custom at Santiago ever since the American ships have made that station port. Indeed, the sailors are believed to have been welcome visitors, for they spent a great deal of money in the native shops. The officials at the Navy Department are at a loss to conceive what may have been the reason for the change of attitude on the part of the Santiago police.

They can scarcely believe that the men were much to blame, and they are certain they would not be aggressors because Commander Tappan reports that they were "attacked" by the police and the character of the injuries sustained by the men is an indication that they were assaulted with clubs and swords or bayonets. No mention is made of any attack upon the police.

ENSIGN'S TROUBLE.

In the absence of an explanation to the contrary, at the Navy Department it is said that either Ensign Brisbin got into trouble through interfering in behalf of his men when they were assaulted, or that the sailors became involved through attempting to succor their officer when he had fallen into the hands of the police.

According to State Department advices, Ross E. Holaday, the American Consul at Santiago, is assisting in the investigation, which will be made by the civilian authorities by order of Governor Magno, supplementing inquiry that is being made by Commander Tappan. The naval officials here have no doubt if these inquiries disclose the fact that the police have been guilty of unwarranted attack upon the sailors, the civil authorities of Santiago will mete out the proper punishment.

Commissioners Eagan and Aligenthaler declare that if the District Attorney should not advise them, they will protect the sailors under the law until the expiration of Davis' license, and would prevent its renewal.

Southern Pacific Abolishes Clause Reserving Mineral Rights.

RENO, Nev., May 1.—The Southern Pacific Company has authorized its attorney here, Charles R. Lewers, to make the announcement that in the future in all deeds made by the company there will not be a mineral reservation clause. This clause, which has been inserted in all deeds conveying the lands originally granted the Central Pacific, has been used for the past four years, its effect being to reserve for the company all minerals contained in the lands.

The recent action, which originated with Land Agent W. H. Mills, will prove beneficial to prospectors and the mining industry at large, as the reservation clause formerly used was very broad and sweeping in effect. No announcement has been made as yet concerning the future policy of the company in regard to permitting exploration and location of the patented lands of the company by miners, but vigorous efforts are being made by strong interests to have these lands thrown open to the prospector on fair terms.

IRONWORKERS GO OUT AT UNION IRON WORKS

At the offices of both companies it was learned that the officials had decided to fight the union to a finish and were determined not to recede from the position that they had taken. A few of the shipfitters that appeared at the Rishon works this morning went about their duties but were compelled to desist, owing to the inability to secure the necessary power facilities for carrying on their work. Not a workman was seen up on the part of the Union Iron Works, and those few that were not out on strike, that came around, spent the day in lounging and talking over their grievances.

Both companies have announced their willingness to arbitrate. A meeting will be held in the Labor Council hall this afternoon to vote on whether to submit their differences to arbitration, or to carry out their present fight.

LONG-STANDING FEUD RESULTS IN MURDERS

Prominent Texas Attorney Is Shot Dead in Cold Blood by Man Who Held an Old Grudge.

CENTER, Tex., May 1.—Carroll B. Short, a prominent attorney was shot and killed last night by DeBuck Paul. The shooting grew out of a feud of several months' standing. In December last, a brother of Paul was shot and killed by a negro in the employ of Short and his brother, while leading a posse, which was attempting to

find that the only way to take the census and some near getting an approximate count would be by taking the count wherever the children were found, regardless of blocks, wards, or any other boundaries. This course was followed, and while the census was considered fairly correct, there is no basis formed for comparison this year.

The work this year is being done systematically, and next year there will be sufficient basis arranged to make a daily comparison, and when the count is completed it will be little work to tabulate the figures and make a complete report.

Superintendent McClymonds thinks the number of children will fall below the figures given last year, of children taken across the bay, who have returned this year to their old homes and will not be here to be counted.

With returns last night, made by the school census deputies, the work of taking the census for the year 1901 was completed, and the figures are ready for compiling. City Superintendent of Schools McClymonds says it will be impossible to make any comparison of figures with those taken in former years. This is caused by reason of the earthquake and fire last year, and the change in manner of taking it last year from the way in which it was done in years preceding 1906.

Last year the census taking was started by wards, while before that the work was done by blocks. Regardless of the work was done by blocks, regardless of the work was done by blocks. Everything started out well last year, but the disaster knocked everything, and finally it was

MISS CONNELLY

A Word to the Wise Is Sufficient

When you purchase your piano you should think of the future, and if you cannot afford a Knabe, Mason & Hamlin, Hardman, Packard, Cenover, Ludwig or some other high-grade piano, before purchasing temporarily you should ask yourself the following questions:

1. What high-grade piano are carried by the house of whom I am contemplating purchasing?

2. Are they thoroughly reliable?

3. Are they a special sale house, who always have their prices marked high in order to make special prices to every customer?

4. Are they strictly a one-price house, so that in case I wish to exchange the piano I am purchasing temporarily that I will not be over-charged?

5. Am I to receive a three-year exchange agreement, such as is given by The Wiley B. Allen Co., enabling me to exchange for any other piano carried by them during the life of said guarantee?

Slightly Used Pianos

We have in stock a few slightly used pianos which we will offer as specials while they last. These goods have been taken in exchange for higher grade pianos or reverted from parties who have failed to live up to their contract. In cases where considerable amount of money has been paid we will allow this amount as a discount from the original price to parties wishing to go on with the contract.

Following is a partial list:

One good second-hand Fisher Piano.....\$225.00

One excellent Ludwigs Piano, largest size, second-hand.....\$395.00

One excellent Ludwigs Piano, largest size.....\$350.00

One Smith & Barnes Piano, which we do not carry regularly, to be closed out (new).....\$225.00

One second-hand Richmand Piano.....\$165.00

One second-hand Marshall Piano, would do for practice purposes.....\$9.00

One Thayer Piano, practically new.....\$195.00

One Hamilton Piano, used three years.....\$190.00

One Price & Teepie Piano, a beauty, second-hand.....\$240.00

Our three years exchange agreement will accompany any of the above mentioned pianos and remember that when you wish to exchange for a better one you are dealing with a strictly one-price house, which is a safeguard at all times. Don't fail to investigate our beautiful stock before purchasing.

OAKLAND RULED BY A CZAR

(Continued From Page One.)
This law, which does not exist, but which is being so hard enforced is daily resulting in loss of time and money to the business men who are located in the condemned block.

"The City Attorney tells me that such a law were it written in the ordinance book could not stand as it would be an interference with guaranteed rights. The chief of police must believe that what his officers are doing in turning back vehicles, is without warrant because when we refuse to obey their directions they fail to arrest us.

"We propose to stop this sort of thing and we ask the aid of the Merchants' Exchange. We have been offered money in any sum to make this right, but we cannot spend it. There is no contest, no penalty, no arrest, no fine. We are in a strange position, suffering from the operation of a non-existent law for the violation of which there is no penalty but which, nevertheless, works on constant injustice.

"A Czar of Russia has come to Oakland and placed his officers on the public highway to intercept people going about their legitimate business on public thoroughfares."

W. P. HOOK.

W. P. Hook followed the first speaker in a similar strain and gave a number of instances occurring during the past week, in which there was inconvenience suffered.

"Last Friday," he said, "we presented a petition to his honor, the Mayor, asking that the Twelfth street order be rescinded but no attention whatever has been paid to it. This New York idea will not and should not work in Oakland, and we will not New York yet, and will resist the order we can think of, even if we have to station men on the corner to direct people to go down the street regardless of the policemen on guard. The object sought by the authorities can be gained by placing one officer at the point claimed to be dangerous to keep the crowd and teams moving and not only them but the street cars as well."

GEORGE ARPER.

George Arper expressed the opinion that the Mayor had acted from the best of motives, being desirous of guarding against loss of life. "Some one will be killed at that point," he said. "It is a dangerous point, and I am surprised that no one has been killed before this. But, however dangerous the locality may be, the resolution is not strenuous enough to justify the order."

"I am satisfied that regulation will relieve the congestion and I am satisfied that if Mayor Mott has the situation placed before him in its proper light, he will rectify the mistake he has made."

RESOLUTION.

As a result of the discussion the following resolution was unanimously adopted:

"Whereas, Twelfth street, between Broadway and Franklin has been closed to vehicles by resolution of the police and fire commission, and

"Whereas, Such closing is not authorized by any ordinance or law of this city and is detrimental to the rights of the public, therefore, be it resolved, by the Merchants' Exchange that such blockade be removed in order that business may resume its normal condition."

STREETS.

The committee on depressions in streets, to continue at work, ascertaining also by what right certain competing companies occupy more than a legal one-third of the streets with them. The complaint was made by Joseph Martin and others that the water and gas companies are not leaving the street surfaces in good condition. The Home Telephone company, he stated, had also left a ditch on Washington below Seventh for the past three months.

OAKLAND TICKETS.

Secretary Walker stated that last week three Oakland business men attempted to buy tickets for this city from the Santa Fe agent at Stockton and were given them only after much urging. The agent wanted to sell them transportation to San Francisco, having no printed Oakland tickets. This incident led to the following communication:

"Oakland, Cal., April 25, 1907.

"Mr. J. J. Warner, general agent, A. T. & T. R. R., Oakland, Calif., Dear Sir: From information possessed by the Merchants' Exchange of Oakland, California, we are satisfied that tickets from interior points to Oakland when asked for by purchasers are not given to them but tickets to San Francisco are issued instead. While it is a fact that the rate of fare is the same to either place, it is also a fact that this action of the railroad companies results in discrimination against Oakland. We cannot understand why the cities of Oakland, Berkeley and Alameda possessing collectively about the same population as the City of San Francisco should not be on the railroad lines.

"We also learned from examination of railroad publications that while cities as Santa Cruz, Redding, Rutherford, San Jose and other places containing much less population than Oakland are recognized and designated in circulars and other railroad matters, the east shore of San Francisco bay does not yet seem to have been discovered by the railroad officials except under other circumstances.

"Kindly take this matter up with your company and ask for information, and should any data regarding it be required, please call for information at any time, and we shall be glad to furnish it."

"Thanking you in advance for the trouble, and hoping an explanation may be shortly received, I remain, Your truly, Wilber Walker, secy."

THE RESPONSE.

The following response was received:

"Mr. Wilber Walker, Sec. Merchants' Exchange, Oakland, Calif., Dear Sir: I have your letter of April 25th, 1907, attention to action of selling parties tickets to San Francisco who inquire for tickets to Oakland; and also to the fact that many of the eastern rate sheets do not show Oakland or Berkeley as points in California to which tickets can be sold.

"I have referred your communication to our passenger traffic manager, with the request that he make reply to same, which I will be pleased to transmit to you."

"I think you will always find the Santa Fe company ready to co-operate with your good selves in keeping the cities on this side of the bay before the world, and I am sure they will be willing to do everything possible to prevent Oakland, Alameda and Berkeley being advertised simply as suburbs to San Francisco. Your truly, J. J. Warner."

BOARD OF PUBLIC WORKS TRANSACTS ITS BUSINESS Agreement Made With Piedmont Relative to Sewer System--Other Routine Matters of Interest.

Commencing this morning the Board of Public Works started in at a new meeting hour. Nine o'clock is the time now set and it is the intention of members of the board and commissions to settle down to work in the future as near that hour as possible.

F. M. Luttell of 380 Stanford avenue, entered a protest to the board against number being piled on Stanford avenue, in front of the Hidecker Lumber Company's plant. The protest was instructed to take up the matter with the lumber company and get the relief asked.

H. M. Maxwell, representing the Piedmont Sanitary District, appeared before the board to make some arrangements relative to the outlet for the Piedmont sewer district.

AGREEMENT.

Several years ago Piedmont paid Oakland \$5000 and was given permission to connect with Oakland's sewer system in Pleasant Valley avenue at the Oakland city limits. The agreement has existed for a number of years. This time has expired and the Oakland sewer outlet is being used simply by average.

The sewer in Pleasant Valley avenue is one carrying a twelve-inch pipe, but lower down the pipe narrows. City Engineer Turner suggested that the arrangement be continued, but later something must be done and the Piedmont district will then have to bear its cost.

This will mean that Piedmont will erect a pumping plant on East Twelfth street, to be used in pumping the sewage through the smaller pipe, thus increasing its capacity. Piedmont will build the plant and pay for its maintenance until that district builds its own outlet or annexes to Oakland.

ACCEPT TERMS.

The proposition was accepted by Maxwell and will be in force when notified by the city engineer that the new arrangement goes into effect.

A resolution was introduced notifying proprietors of the Eleventh-street market, between Broadway and Franklin, to stop using signs, to comply with the ordinance relating to swinging signs. The proprietors must make it a swinging sign and pull it back in the regular hours, or their electric sign must come down, yet Monday night a house was being moved with a team of horses.

Shut off from the water supply from Mr. Nichols, the owner of the house, asking that a fountain be placed at the corner of Newton, Walton and Althol avenues, in a park owned by the city, was received. The communication was referred to the superintendent of parks.

PETITIONS.

The following petitions were received by the board this morning:

J. P. Eddot, to erect and maintain four electric signs on Broadway, 100 feet north of Seventeenth street. Granted.

From Ralph Kaiser, to remove trees on Eighth street, corner of City, Grant.

VICTIM OF CONVULSIONS WEDGED IN AN ELEVATOR

Physician's Patient Falling Between Lift and Shaft Sustains Serious Injury.

Shoppers engaged in the placid routine of making their purchases at Abrahamson Brothers' store were considerably alarmed Friday afternoon when they saw a young man apparently trying to end his life by wedging himself between the elevator cage and the wall of the shaft of the elevator near the Thirteenth street entrance of this store.

The accident happened near the closing hour, when the elevator was crowded with women. The young man, who gave his name as E. A. Graham, had been in the office of Dr. M. E. Eno, on the top floor, and was descending when, just as the elevator came to a stop, the first floor, the man either tripped or fell at an rate fell below the elevator and into the freight compartment, struggling between the wall. Clerks in the store endeavored to pull him out, but either the man was unconscious or was deliberately trying to commit suicide.

At the time of the accident, the man was almost lifted completely from his head, and he was otherwise badly bruised.

Those who witnessed the accident declare that they expected to see him drop into the freight compartment.

He was taken to St. Anthony's Hospital in this city. Graham had been treated for nervous affliction, and it is thought that probably he was suddenly made unconscious by the motion of the elevator or from some other cause.

The man had no recollection of the accident that nearly cost him his life, and refuses to discuss it. His scalp was almost lifted completely from his head, and he was otherwise badly bruised.

LATEST NEWS FROM ALAMEDA AND BERKELEY

VOLLMER DOES NOT ASPIRE

Is Content With Present Office and Will Not Seek Another

BERKELEY May 1—As long as the people of Alameda County have efficient and capable an officer at its head as Sheriff Frank Barnet I have no desire for the office, said Chas. P. V. Vollmer of this city, when told of the rumor that his friends were endeavoring to place him in the right for the county office in the next campaign. Furthermore, continued he, "I am perfectly satisfied where I am and am willing to stay as long as the people of Berkeley will let me." Frank Barnet is a good friend of mine. I do not think there is an office in the State who is more capable than Barnet. I tell him, "I have no intention of seeking the office. It is good enough here in Berkeley. Barnet is the man for the place and he will keep it as long as he wants it."

BERKELEY TEACHERS WILL GET INCREASED SALARIES AFTER MANY DAYS' WAITING

Board Passes a New Schedule at Last Night's Meeting

BERKELEY May 1—After the teachers of Berkeley public schools will receive salaries one result commensurate with the increased cost of living. Last night's meeting of the board of education a schedule of increased salaries was adopted. Principal B. G. Dierck of the McKinley school and its executive of the Berkeley Teachers Association expressed the general opinion that the school board had been slow in this matter. He asserted as having done it nobly by him. W. F. Palmer, one of the McKinley and Miss S. M. ROY J. YOUNG RICE

HE CRITICISES CONSTRUCTION

Professor Publishes Strong Plea for Honest Work in Rebuilding.

BERKELEY May 1—Professor Charles Dorleth Jr. of the University of California publishes in the April number of the Mining and Scientific Press an interesting article entitled "A Year of Reconstruction." He declares in the beginning that he has no sympathy with the efforts of many persons to over-emphasize the destructive effects of the conflagration and belittle the earthquake as a primary cause. There has been an earthquake in California, he declares, it made out considerable damage and it was the prime reason for the great fire. In fact he strongly asserts that the frank admission of the destruction is beneficial in that it tends to promote a desire for better building and it encourages a more thorough understanding of local engineering and architectural problems.

NOTH HONEST CONSTRUCTION

Professor Dorleth says that with honest and scientific construction, there never could have been except at places on the line of the fault itself such a complete collapse and disintegration of structures as to promote general destruction. He points out that some remains of structures occurred right on the fault-line notably in connection with the Pacific bridge. A most interesting comment is that the general vibration of the earth's crust caused marshes that were near the center of the disturbance to shake like bowls of jelly.

CITICISMS MUNICIPAL BUILDINGS

Professor Dorleth criticizes severely the construction of municipal buildings and notes by way of illustration that the principal ruins still remaining in San Jose are those of buildings constructed by the city or by community enterprise. It is a sad reflection he remarks that cities and communities all over the United States are lax in their building of municipal and public structures, it is marked contrast to the excellence of federal structures.

Mr. Dorleth strongly urges the future erection of buildings of class A construction. He states that such buildings presented to the fire a decided resistance in comparison to the dangerous bulk left of the buildings that had self-supporting walls. CLASS A IS BEST

It is true he clearly brings out, that class A structures do not pass through the fire unharmed. In fact in most cases 70 per cent of the first story was destroyed at the same time these structures have been readily rehabilitated thus permitting a quicker resumption of business and a great saving of rents. By way of illustration he points to the Monadnock building which has been occupied for at least six months and the magnificient Flood building which today appears almost without a blemish. On the other hand directly across the street the ruins of the Emporium look almost as bad today as they did the day the fire started.

Professor Dorleth severely criticizes the old building law. He states that the Board of Supervisors were extremely lax in drafting it up and that it consisted of 17 different and sometimes conflicting enactments. The

Miss Edith Whitney, Better Known as Josephine Withrow Seeks Rest.

BERKELEY May 1—After two seasons of signal success Miss Edith Whitney, known to the stage world as Josephine Withrow, has returned to Berkeley to pass her vacation at the home of her mother, Mrs. Charles Ledeme, and Jean Bauchon who were married at St. Joseph's Church Saturday evening.

Congressman and Mrs. J. R. Knowland left yesterday for Watsonville, where the Congressman will be the guest of Lieutenant Governor Foster.

Miss Whitney is here to travel through the State during the next six months giving his talk on the canal.

W. A. Libbey returned to his home this week after a business trip in the northern part of the State.

Mrs. F. A. Van Sickle is to entertain Mrs. Grace McCormick.

The Critic Club is meeting this afternoon at the home of a member in San Francisco.

Mrs. A. Douglas is here from Clayton on a visit to relatives. She will be here on Saturday.

Excuses for Street Blockades.

A contemporary credits Mayor Mott with the statement that while moving houses through the main thoroughfares is bad for business and causes general inconvenience to the public, it is sanctioned by the municipal ordinances.

Not only the municipal ordinances but the general law of the State permits vehicles to be driven through any public street, but the mayor in the exercise of a wise discretion, recognizing an extraordinary condition, has stationed a policeman at the corner of Twelfth and Broadway to stop all wheeled traffic from passing in and out of Twelfth street at that point. To insure public safety and convenience the mayor has temporarily suspended a statutory right guaranteed any and everybody. He is supported in this by public opinion, because he is clearly acting for the interests of the great mass of the people and for the protection of human life.

But on the housemoving proposition he reverses himself with singular alacrity. He allows a few persons to block entire streets for days and causes loss and inconvenience to thousands at the same time. The privilege of moving houses (it is not a right and cannot be made a right) through the streets is a conditional one, dependant upon the permission of the Board of Public Works and the complaisance of the police. Municipal ordinance cannot give anybody the right to block highways dedicated to public use, and it is mere pettifogging to assert that housemovers cannot be prevented from taking possession of the streets, cutting light, power and telephone wires and damaging the pavements at their own sweet will.

But if the mayor is justified in employing his discretionary power to protect the public in regard to vehicle traffic on Twelfth street, why is he not equally justified in exercising it to protect the public from the still greater housemoving outrage on Thirteenth street? In the one case a statutory right is denied hundreds; in the other, a conditional privilege is abused with impunity by a few individuals. Why is authority tempered in one instance and sternly severe in the other?

It is a disgrace that in a city of over 200,000 inhabitants, as Oakland is, old wooden shacks should be moved through the main business thoroughfares when there is neither public nor private exigency to excuse the practice. It is not at all necessary that these old buildings should be moved standing. They are of little value, and the city would be better off if they were torn down. They are allowed to be moved merely that some individual may make a few dollars. There is no excuse for public outrage to promote private profit.

In every other large city there is a deadline within which house-moving is not permitted. There should be the same sort of a deadline in Oakland. The business center should not be invaded by moving houses passing from one part of the city to another. To allow it not only causes enormous inconvenience, but it occasions loss to many people and invites public disaster.

In the midst of the dinner hour the other day the leading hotel of the city was thrown into immediate darkness by some house-movers cutting the electric lighting wires. This was done without warning, and a whole dining-room full of guests left sitting in darkness at their tables till other lights could be provided. This sort of thing has become very common. It must be stopped. Oakland is not a village now, and it is time the municipal authorities realized their responsibilities. They should understand the broad distinction between public right and private interest, and not permit the exercise of authority to be made the sport and plaything of favored persons with axes to grind. By no stretch of imagination can the ordinances be construed as granting the right to anybody to needlessly blockade the streets.

One cannot pick up a paper nowadays without seeing accounts of strikes here and threatened strikes there. This is bad for business, bad for labor, bad for everybody concerned. It keeps the entire industrial world in a stew of apprehension and unrest; it discourages expansion and investment, and adds extra hazards to business. It engenders strife and class antagonism, and creates uneasiness in financial circles. The tension due to labor disturbance is already very sharp, and there may be a snap at any time, which would mean a panic and a period of depression lasting several years. Unless more stability can be imparted to the labor situation there is going to be widespread cessation of railway building and other industrial operations now giving employment to a vast army of men. During the last three months there has been a perceptible loss of confidence and a consequent tightening in the money market. These are premonitory symptoms which labor agitators would do well to heed. Constant agitation will surely bring wreck to our national prosperity if persisted in.

Andrew Carnegie should call a peace conference of the Republican factions. There are prospects of an internecine party strife in nearly all the great Republican States.

It is stated that the money raised by the Erie Railroad for betterments cost eleven per cent in discounts and excess interest charges. No wonder the railroads are slow in making improvements.

The Visalia Times calls the enforcement of the Sherman anti-trust law a Democratic principle. The Sherman anti-trust law is a Republican measure, amplified by a Republican Congress and enforced by a Republican administration. It is about as Democratic as the Dingley tariff act.

Interest in the street car situation is almost as great in Oakland as it is in San Francisco. The universal hope is that there will be no strike. It is felt here that the efficacy of arbitration as a method of settling labor disputes is on trial, and that a strike will prove its failure. If no reliance can be placed on the results of arbitration all guarantee of industrial peace is gone. Hence the general anxiety for an amicable adjustment of the dispute between the United Railroads and its employees. Happily the Oakland carmen have always lived up to their agreements.

AMERICAN PIANOS AND GUITARS IN GERMANY.

Consul Pendleton King, of Aix la Chapelle, reports as follows on the musical-instrument trade in Germany:

Few American pianos are now sold in Germany. Steinways are sent in parts to Hamburg and are there put together. But the American manufacturers are said here to be making a strong competition with the Germans for the trade in Australia.

American guitar seems to be almost unknown in Germany and as they are undoubtedly better than the German and Austrian guitars it seems to me that the American guitars of the highest grades could be produced and find a sale in all the largest cities.

IS THIS THE ONLY WAY WE CAN GET GOOD STREETS?

Electrification of Steam Roads.

The assurances which Vice-President E. E. Calvin gave through THE TRIBUNE last evening that the local steam lines of the Southern Pacific Company, which are operated from the Alameda pier, will be running with electricity as the motive power on or before September 1st, remove all cause for the doubt which the apparent delay in carrying out the plans formulated and announced many months ago may have excited in the minds of some citizens. Every feature associated with the electrification of these local steam lines is, in fact, in course of development now and has been for several months past. The intimation is thrown out that the crowded condition of Eastern manufactories has delayed matters considerably.

It is quite evident, moreover, that the management of the Southern Pacific Company has reached the conclusion that the increase in population in Oakland and neighboring cities during the past twelve months is here to stay, and that nothing can prevent these communities from continuing to grow. The company has, therefore, wisely broadened out its original plans, and is preparing to make other changes of much greater magnitude and importance in the local and interurban transportation service. The passing of the steam locomotive, with its nerve-racking noise and clouds of soot defiling the atmosphere, from the streets traversing the main thoroughfares of the three cities on this side of the bay, will be a welcome incident in the history of their transformation. The electrification of these local steam railroads will, in fact, be a great aid in the work of adjusting these communities to conform with the new conditions now confronting them and in the advancement of their interests and of the territory tributary to them.

Bryan's partisans are now saying the President talks too much. Is the President's fondness for talking regarded as an encroachment on Bryan's particular preserves?

CHARMING OAKLAND.

If you're weary of a region
Where the blinding blizzards blow,
And are looking for a refuge
From the chilling frosts and snow,
If you're tired of deadly cyclones,
Tired of lightning's lurid glare,
Hurricanes and wild tornadoes,
Dealing death and dire despair,

If you seek a home where songbirds
Sing sweet carols all the day,
Where the climbing roses blossom
In December and in May—
Seek a home where balmy breezes
Gently blow, and skies are clear,
Where the springtime verdure fades not
All throughout the livelong year,

Where the silvery waves of ocean
Gently kiss the golden sands,
And where kindly heaven dispenses
Choicest gifts with lavish hands?
Words must fail, and fancy falters,
Vain are efforts to convey
Thoughts that far transcend description,
Scenes no language can portray.

Come to sunny California,
Come at once—make no delay.
Build your homes in charming Oakland,
Gem of San Francisco bay.
When you're come you'll join with Sheba's
Far-famed royal queen of old
And proclaim in words of rapture—
That the half has not been told.

SOCIETY: GOSSIP ABOUT THE SMART SET

The Oakland Club program today was one of unusual interest. After the business meeting at 2 o'clock, Miss Mary Tyrell gave an interesting talk on "Tree Planting."

The musical numbers were a vocal solo by Miss Leota Schenk, "Under the Rose" (Wm. Armes Fisher), and an old English song, "Cherry Ripe," sung by C. E. Horn. The accompaniments were played by Mrs. Geo. F. Watsell.

The Oakland Club members will have an important place at the May Fete next Saturday at Arbor Villa, with Mrs. Charles S. Churberlain as chairman of the concession.

The Arm of Woman

EXPOSITION WILL SHOW WHO HAS THE BEST

"I have entered the arm contest, and am quite hopeful of being declared first prize winner," says a teacher of the Berkeley school department, "but I trust that if I am adjudged the victor you will let me get a dress pattern and a hat rather than that \$50 worth of silk stockings. That quality of hostility is very nice, but I think I prefer the other articles if it's all the same to THE TRIBUNE."

"As to the time of posing, what do you advise, Phidias; morning or afternoon? I have kept your photo order for over a week now without filling it simply because I am undecided when to go for a sitting. My husband pokes fun at me and tells me I am afraid to have my arms put on exhibition in print—they are too slender, he avows. Of course, it's just sarcasm on his part; he didn't talk that way before we were married. My arms are what the Russians call svetle—not stout, but they taper prettily from the shoulder down, and my hands and wrists have a real aristocratic look."

The morning, when the sunlight is sharpest, is the best season for posing for a likeness. If that correspondent, just alluded to—she is the wife of an Oakland merchant—will reach the photo gallery about 10 o'clock it will be possible for her to secure a first-class depiction of herself. Or, she should call there and make an appointment for some convenient moment.

It is necessary for Phidias to reiterate that scores of free picture orders are out; and the various holders of them should proceed to utilize them.

GIRLS, REALLY YOU OUGHT NOT TO BE CAUGHT TALKING TOO MUCH
SOME SUGGESTIONS HOW TO BE WISE

and lovemaking.

But let a wise one tell you, girls, that if you are shrewd you would listen instead of relating your experiences.

Don't talk, even though the other girls may think you keep quiet because you have nothing to tell.

Keep quiet, and then you will have nothing to regret.

Never repeat anything that a man tells you. If he confides any of his personal or business affairs to you, regard them as sacred.

If he tells you a secret that later becomes publicly known, do not show that you have known it all along. Be content that he has confided in you, without letting the world know of the confidence.

If you have a man friend who writes to you, do not show his letters to other girls.

Those letters are written for your eyes alone, and it is dishonorable to read them to others.

A man is quick to detect a girl whom he can trust, and he honors her with respect and esteem.

Most men labor under the idea that woman is a natural-born chatter-box; that she can keep nothing to herself.

It is every girl's duty to be a living contradiction of this theory.

Let the men say that you, at least, know how to govern your womanly propensity to talk.

Talk about your men friends if you want to, but don't talk about their attentions to you, or tell other girls what the men tell you.

Always remember that the one who keeps quiet is given credit for knowing a good deal, while the chatterbox tells all she knows and no one attaches much importance to her utterances.

"There's many a slip 'twixt cup and lip!" The girl who boasts of her conquests often places herself in an extremely humiliating position when the other girl carries off her supposed victim.

If she only realizes the fact, the girl who boasts of her conquests harms herself equally with acquaintances of both sexes—men regarding her as a sort of "scalp-hunter," and women hating her as a poacher on their (possible) preserves. Let us bear our honors, meekly and in silence. Conquests, if real, are patent for all to see.

The girl who really attracts others need never advertise herself.

THIS GIRL UPHOLDS RIVAL WHO KILLED HER FIANCÉ

Man Shot Wedding Day Had Secret Room

OIL CITY, Pa., May 1.—The bodies of Miss M. Belle Stroup and Thaddeus E. Ross, her former sweetheart, whom she shot before committing suicide yesterday, eight hours before the time fixed for Ross' marriage to another woman, were viewed by a coroner's jury today. Ross' body was taken to the home of his parents, next door to the house which he had prepared for himself and bride-to-be, Miss Edith Sampson.

The house had been thoroughly furnished and was to have been occupied by them last night had not a jilted woman's fury turned the wedding day into one of tragedy. A pathetic incident was brought to light today when Mrs. Mary Mable, a sister of Miss Sampson, viewed the remains of the murderer and suicide. She recognized in the dead woman a fellow traveler who rode with her yesterday on the train from Titusville to this city. One was coming to attend the wedding of her sister, while the mission of the other was to prevent the ceremony with bullets from a revolver she was carefully carrying in a cigar box.

"I alone am to blame for this crime and for what led me to it." MAE. The girl had not been even dependent and if she had any troubles she had not revealed them. She was 23 years old and was very popular in Bella Vista.

Mrs. Mable was accompanied by her daughter and together they discussed

Whom Does She Kiss?

All girls must kiss, and smile or frown,
And be in love, because
The stern decree is written down
In nature's changeless laws.
So here is to the pretty maid
Who lets her lips meet mine,
And frankly owns she's not afraid
To give love's countersign!

Ho! Ho! Ho! Ho! I think no less
Of her who brings me bliss,
Because I know
She trusts me so;
I know whom she will kiss!

Here's to the maiden cold as ice,
The maid of modesty,
Who says that "kissing isn't nice!"
Which means—she won't kiss me!
She kisses some one—that is clear,
There's some one else who can
Approach her lips with little fear,
But I am not the man!

Ho! Ho! Ho! Ho! the maid of ice!
The coy and prim young miss!
Without a sigh
I pass her by,
And think "Whom does she kiss?"

POODLE DOG IS CAUSE FOR A DIVORCE IN THIS FAMILY

The Husband Did Not Love the Canine

NEW YORK, May 1.—Justice O'Gorman, of the Supreme Court, yesterday awarded to Mrs. Elizabeth Bunte, of his wife, and asserts that the alleged fortune-telling guardian has told her that "I was to live but four years longer and that she was to marry again."

Bunte does not deny the paternity of the infant, and says it is with his son because his wife does not want it. He says his wife left him one night after they quarreled about the wife's poodle dog. "She took the dog," says the defendant, "and I have not seen her since. She declared before leaving that I loved neither her nor the child, a boy, who is in charge of been living with Mrs. Moore."

Mr. and Mrs. Bunte were married on November 25, 1906. Mrs. Bunte has a baby a year and a half old, born to her when the first Mrs. Bunte was alive. She says Bunte is the father of dog. Since our separation she has

this child, a boy, who is in charge of been living with Mrs. Moore.

IS IT RIGHT FOR A WIFE TO REMAIN OUT UNTIL 3 A. M.?

Judge Will Have to Decide the Case

NEW YORK, April 30.—Alois Seidenspinner held the center of the stage in the Court of Special Sessions, Brooklyn, recently when his wife charged him with cruelty to their daughters at their home, 171 Suydam street, Williamsburg.

"Your honor, my wife has mistreated me," Seidenspinner said with infinite sadness. "I have tried to be a good husband to her, but she has refused to be a good wife to me. She hasn't done my washing, and she didn't serve my meals when I came home to dinner. She even told my little girl not to have anything to do with me."

Seidenspinner paused to take a long breath, then he shouted:

"And to clinch the whole affair she tells me she is a member of a fraternal organization of which she is the organist, and four days in the week she returns home at 3 and 4 o'clock in the morning."

The Justice and the married men in the courtroom sat up and took notice. Mrs. Seidenspinner stepped for-

THIS YOUNG WOMAN INSISTS ON SECURING TWO DIVORCE DECREES

NEW YORK, April 30.—Mrs. Essie Wolf, 18 years old, of 188 Edridge street, is seeking a divorce from Julius J. Wolf, aged 21, of 225 East One Hundred and Third street, Fifth avenue and Central Park West will not be interested in this announcement, but society on the lower East Side, where the young couple is well known, is talking about nothing else. When the boys and girls down that way discuss red-letter events they are sure to refer to July 18, 1905. That was the day Essie and Julius marched up the aisle, and afterward there was a real torrid time.

Essie wants two divorces, one in English and one in Hebrew. As Essie is still a legal infant, her mother is conducting the suit for her.

"I won't object to her getting one divorce," said Julius recently, "but I don't intend to let her practice on me."

When asked why he and his wife could not agree Julius said:

"Too much mother-in-law."

"Did your wife's mother live with you?"

"When Julius was asked if he would ever marry again he said: 'I'll never be taken alive.'

But Co-Eds of Washington Report They Need No Pointers on deportment

SEATTLE May 1—Co-eds at the University of Washington are up in arms over a series of "suggestions" made by Anna Howard, dean of women that are intended to govern the conduct of the girls at the dormitories. The boating season is just commencing and as the university is located on Lake Washington most of the suggestions relate to the conduct of boat and picnic parties.

Miss Howard suggests that no girl go canoeing unless she is accompanied by a couple in another canoe. She suggests chaperones for all social parties and suggests that the girls notify the dormitory officials when they go out to spend an evening and fixes 10 o'clock as the hour when the girls ought to return. The girls at the dormitory deplored today that the suggestions did not cover the question of the girls themselves being capable of understanding and of judging what pleased them.

Mother of White's Slayer Will Make Large Gift to University

DENVER May 1—Mrs William Thaw, mother of Harry Kendall Thaw, will give \$50,000 to the new Westminster University of Denver, a Presbyterian institution, for which the foundations are now endeavoring to raise a fund of \$1,000,000. She has also assured those in charge of the raising of the subscriptions that if the drain on her finances occasioned by the Thaw trial is not too great the amount will be made \$100,000 inside of a year.

The greater sum of \$250,000 will come as a thanksgiving offering from Mrs Thaw if her son Harry is freed from the charge now hanging against him in New York.

WEST OAKLAND YARDS ARE IN CONGESTED CONDITION

Freight Arrives Too Fast to Handle—Other Notes Among Railroad Circles.

There is nearly as great congestion in the Southern Pacific yards West Oakland as there was at the worst period last fall, and the condition promises to become still worse next week. Freight is being held at the yards at Congdon and 15th streets only, in addition to previous commitments not yet delivered. The trouble attending to railroad men is due to the fact that San Francisco merchants either do not purchase in time to take care of the arrival of goods promptly.

Not long since the bad condition of the transcontinental tracks interrupted traffic seriously within, the clearing of

the yards and it was hoped that the terminal would remain free for the return of cars but now the congested season promises to continue through the summer fruit shipment, being about to be put into the cars and the strain on tonnage equipment to a point only equal to previous commitments not yet delivered. FIND GIRL LOCKED IN ROOM WITH THREE MEN

Pretty Former Telephone Belle and Aunt of Adventurous Turn Pass Gay Night at Road House.

No end of trouble was caused this morning by a midnight scandal in which Mrs. Ollie Avon, of 179 College avenue, and her pretty twenty-year-old niece, Gertrude Shields, a former telephone girl, were the principal actors, but who refused to order the arrest of the men who had taken them to an Elmhurst road house during the early hours this morning.

Mrs. Avon called the attention of the officers to the scandal going on out the road from which she slipped away, yet after she had taken Deputy Sheriff William Moffat and John Riley out to the scene of the hilarity she was reluctant about swearing to any complaints, as the men were not even taken into custody.

The two women were released from the county jail after a little talk with Sheriff Barnes, Fred Courvoisier, Charles O'Gara, and George Valentine, the latter being the son of the late J. J. Valentine, formerly president of the Wells-Fargo Express Company, were not even brought to the county jail, but were left at the roadhouse of Sam Batts.

ONCE WOODED DEATH.

Valentine recently attempted suicide in a lodging house in San Francisco because some woman whom he claimed to be his wife had refused to live with him.

GOOD INTENTIONS.

Mrs. Avon and her niece, Miss Shields, the latter an innocent appearing little blond, left their homes on College avenue last night with the intention of visiting the Providence Hospital, but when they were turned away from there owing to the late hour they went to the Palm saloon at Eighth street and Broadway, where a few drinks were taken.

After the visit to the first cocktail establishment, the pair met the three men, who dropped into a rear entrance of another saloon. When the little party boarded a car for Elmhurst they were in a happy frame of mind. By

GALLION WINNER

Danny Maher's Mount at Big Odds Was Second.

LONDON, May 1.—At Newmarket today the 2000 guinea stakes for colts and fillies foaled in 1904, distance one mile, was won by Steve Gallion. Benzonian was second and Linares third. Ten horses were taken to the county jail and sharply questioned by Sheriff Barnes and Deputy Sheriff Riley. After a rigid examination Mrs. Avon and her niece were told to go home. The niece says her aunt was a fool for making all the trouble which she seemed to.

Mrs. Avon appeared at the sheriff's office this morning, but did not express any opinion on the midnight lark of his better-half.

MILLENIUM IS NIGH AT HAND

Lid on in Kings County—Listen to the Whirr of Wings.

SEATTLE, May 1.—Sheriff L. C. Smith and County Attorney Kenneth Mackintosh gave notice yesterday that beginning next Sunday the lid will be put on in all the small towns of King county. Special deputy sheriffs were sent out to notify every interested person in the county of the new rules. The order of the county officials is directed principally at the suburbs surrounding Seattle.

Seattle's Moors closed Seattle on Sunday six months ago and since that time revelry in the suburbs has commenced at midnight Saturday and continued until daybreak Monday. In some of the suburbs conditions have made it impossible for residents to be on the down-town streets. Now the entire county will go dry on Sundays, slot machines will be barred and all other State laws will be enforced on the seventh day.

GIRL TRAMPS REAL ROMANCE

Found in a Freight Car She Becomes Wife of Wealthy Man.

COLORADO SPRINGS, Colo., May 1.—Miss Bessie Boyington, a pretty girl tramp, who just one year ago alighted in Colorado City from a sliding door of an ill-smelling freight car with hair cut short and dressed in boy's clothing, has just been married here to George Penn, a wealthy New York City man.

About a year ago the night watchman in the Colorado Midland yards, Thomas Lahey, found the girl. He took her to his own home, and he and his wife looked after the girl, provided her with feminine attire, and transportation to New York, where she was.

Yesterday the Lahey family was surprised to see a cab draw up to their door and a stylishly dressed young man and woman step out. The woman was the Bessie they had befriended a year ago.

Mr. Penn is a wealthy man and he has showered many presents on Mr. and Mrs. Lahey in appreciation of their kindness to the girl.

TALKS HIMSELF INTO 3 MONTHS' SENTENCE

Ernest Lehman talked himself into jail this morning and will have three months to repent. Lehman was charged by his wife with battery on her and he entered a plea of guilty, saying he lost his temper when his wife asked for money to support herself and six children. Police Judge Smith sentenced Lehman to three months in the chain gang as a curb for his temper.

DEATH VALLEY ADDS ANOTHER

To Long List of Tragedies That Has Marked Reckless Quest for Gold.

SAN BERNARDINO, May 1.—Lost in the hideous Furnace Creek desert, on the borders of Death Valley, with neither food nor water, nor any hope of finding any, John L. Morgan, a prospector owning rich gold properties, perished miserably. His partner, Walter Adams, survived and came here today with a story of horrible suffering. Cold by night and hot by day, exhausted, weak, ill-thirst and hungry, Morgan had been ill for weeks and the hardships to which he finally succumbed are almost beyond the power of words to describe. The scorching sands, and apparently according to Adams, prolonged his life and wretchedness several days by so doing. Morgan had been here two years ago. Not long after he had come from the East and went to prospecting together. They had one group of twelve claims for which they had received saloon cash, but which were worthless. Morgan and his wife, in Chicago, had been estranged over a trivial affair, and when dying he pointed out his heart to his wife and said, "I am leaving you. Adams take his farewell to her. Adams will leave for Chicago at once to carry out this last wish."

SCREAMS MURDER.

Nothing further was heard of the people until about 3:30 o'clock this morning, when the window was thrown open and Mrs. Avon began to scream murder.

A baker working in the neighborhood ran into the house and aroused the proprietor, who hastily dressed and ordered Mrs. Avon out of the house.

When she called for help she claimed the door was locked and she could not get out, but when Batt went up to the room he found the door open and only a bolt on the inside that had been driven through by a child.

Miss O'Gara was on the bed asleep and the cause of Mrs. Avon's distress could not be determined except that she was suffering with a not unusual affection from the liquor she had been indulging in during the night.

LOCKED WITH MEN.

Mrs. Avon left the place and rode part way into town on a wagon before she took a train for Elmhurst.

At the police station she reported the affair and told of the fifteen-year-old girl that was locked in the room and being wronged by three men.

The police referred her to the county jail, where she reiterated the tale and Deputy Sheriff Moffat and Riley quickly rushed to the roadhouse in an automobile.

They went up-stairs and the host, Batt, showed them the apartments occupied by the girl. She was sitting on the bed dressed and the others in the room beside her. Miss Shields claims that she was not wronged and did not feel any worse for having been taken to the county jail and sharply questioned by Sheriff Barnes and Deputy Sheriff Riley. After a rigid examination Mrs. Avon and her niece were told to go home. The niece says her aunt was a fool for making all the trouble which she seemed to.

Mrs. Avon appeared at the sheriff's office this morning, but did not express any opinion on the midnight lark of his better-half.

MANY DRUNKS WERE TAKEN IN BY POLICE

Last month's arrests by the Oakland police force aggregated 917, of which the greater number booked are for drunkenness. Diligent search of the list fails to show the names of Frank E. Smith, alias Short, murderer, Jim Reed, diamond robber, and the perpetrator of the dynamite outrage at the California Standard Planing Mill Sunday night.

LONG LOST DAUGHTER A BRIDE

Father Gives Happy Couple Business Block and Big Fruit Ranch.

PORLTAND, Or., May 1.—Finding his long lost daughter in the bride of Frederick Haines, a department manager in the stores of Olds, Wortman & King of Portland, John Friedel, a wealthy land owner of Oroville, Cal., has presented the couple with a full the TRIBUNE office.

block of Oroville property and 160 acres of fruit land. They are preparing to return south. Bertha Friedel's mother died when she was a baby at Susanville. Her father placed her in the care of a family and went west. The family that adopted Bertha moved to Sacramento and there she grew up. The father was unable to find her until he read in a newspaper an account of her marriage. Haines formerly lived in San Francisco, leaving at the time of the fire.

Taking Advantage

It is most gratifying to know that the people of this community have taken advantage of a once-a-year opportunity. We have sold more pianos in the last three days than all the other piano houses together in the same length of time. This shows that with our twenty years' standing, and not running sales continually under any old pretext is being appreciated, and with the genuine reductions which are being made by us for the purpose of this annual clean-up and stock-taking is being taken advantage of. We give you here a list of some of these which we consider worth reading over. We do not expect any of them left within a week, judging from the way they have been going. We are making prompt delivery, having engaged three extra wagons for the stores.

FIXTURES ON STATE CAPITAL WERE MEDIUM FOR GRAFT

Investigation at Harrisburg Smirches the Names of Many High in Office.

HARRISBURG, Pa., May 1.—The testimony on the transaction by which S. M. Williams of Pittsburgh an unsuccess-
ful bidder for the \$2,000,000 worth in electrical fixtures for the State Capitol was loaned \$10,000 on an unenforced bond last August, will be taken up by the capital investigation commission to-
day. The commission will have been sub-
stantially strengthened by the arrival of
John P. Short, of Philadelphia, who has
got this money and to whom he also for-
nished other information pertaining to
the contract.

Yesterday, when upon the stand Wil-
liams refused to deny that Commissioner
of Finance, in a moment of anger, told
him to get square politically with Senator
Penrose for not forcing Joseph M. Hus-
ton, architect of the Capitol, and Mr.
H. S. Sanderson, architect, to give
him a portion of the electrical fixture
contract. Russell, president of the Penn-
sylvania Construction Company, which
furnished the iron, said he had no
furniture for the Capitol and it is not
known whether he will be called.

LAUNDRY WORKERS FIRM

There is no thought of arbitration in the laundry strike and this is the fifteenth week the Shirt, Waist, and Laundry Workers of Alameda county have been out of work. Six hundred able-bodied men and women are being supported by the union and have practically lost their salaries during that time.

Speaking of the horrors of the laundry of Alameda county employing non-union men and women, Mr. Gray, secretary of the local council of laundrymen said: "Let them hire them if they can get them. They'll have a long wait for us to give in. Give in we curse the thought. We are merely fighting for our rights and we'll not give in."

IRON WORKERS DOFF APRONS AND QUIT WORK

LOCAL IRON WORKERS LEAD IN BIG STRIKE

Seven Hundred Men Employed in Alameda County Shops Throw Down Tools in the Eight-Hour Cause.

Seven hundred iron workers walked out of the shops this morning to fight for an 8-hour day schedule with nine hours' pay.

At 8 o'clock all the mechanics of Alameda county threw off their aprons and peacefully deserted the shops, which are all closed. There was a general cessation of work and one by one the mechanics threw down their tools with marked determination. Entirely different from the ordinary strike they went out on friendly terms with the bosses.

The proposal made by the California Metal Trades' Association after their meeting Monday evening caused the Iron Trades' Council on Tuesday and as the different unions had already decided to quit work if the matter was not settled before Tuesday night the Iron Trades' Council decided that they could not have time to take a vote on the proposal by the California Metal Workers' Association before Wednesday morning. Therefore the unions have stepped this morning. The proposal was to arbitrate all the questions and to select one man from the

SIX HUNDRED WORKMEN LEAVE THEIR PLACES

Sympathetic Strike Puts a Stop to Work on Big Electric Plant at Chicago.

CHICAGO, May 1.—The first strike down their tools and walked out under orders from the Associated Building Trades. It was declared by officials of the electrical union that yesterday the big plant, which is one of the most extensive in the country, had been practically stopped. It was estimated that 600 workmen had quit.

STANDARD OIL WORKERS WALK OUT AT RICHMOND

Eighteen Machinists and Nine Lead Burners Receive Their Checks--Company Refuses to Negotiate.

RICHMOND, May 1.—Eighteen machinists employed by the Standard Oil Company went out on strike this morning following their demand for an eight-hour day with a stipulated wage of \$4 per day. Nine lead burners, who are part of 26 burners of this coast, also walked out. The latter demanded an eight-hour day with a wage of \$5 per day. At the present time they were getting \$4.40 per day.

The strike of the lead burners will probably have more wide-spread effect than that of the machinists. There are only 24 workers of this class on the coast and all of these have struck. The

following factories are effected by the action of the lead burners: Mountain Copper Company at Martinez; E. L. Dunton & Nemours Dynamite and Powder Company at Pinole; Vigorit Powder Company at West Berkeley; Standard Chemical Company at West Berkeley; and the Oakland Chemical Company at Alameda.

The Standard Oil Company absolutely refused to negotiate with the strikers this morning. As the latter appeared on the scene they were handed their checks and allowed to go. Last Thursday thirty machinists were locked out at Pinole.

AFTERNOON SESSION OF THE GRAND JURY CASE

SAN FRANCISCO, May 1.—The examination of taintlemen for the jury was continued at the resumption of the Ruey trial this morning. Edward Brown and Mitchell Frank, merchants, expressed bias and were challenged respectively by the defense and prosecution. They stood aside.

The examination of Edward E. P. Ruey proved to be a matter of much importance. It was the fancy of the taintlemen to respond with a speech to every other question by Attorney Ach in cross-examination and a score of times the two became involved in a

VERBAL BATTLE.

Troy retorted: "Well, I made such noises as you are making now. And also I cried out several times 'Boo-Boo'."

Troy said that though he considered Ruey to be a boorish grader and a corruptor, he believed he could give him fair trial.

"I never allow my personal feelings to influence my dealings with the library of others," said the juror.

Regarding a question asked by Ach, Troy said: "You don't need to insult, do you?"

"No insult was intended," replied Ach.

"I accept your apology."

"No apology was intended," snapped Ach.

At 12:30 o'clock the defense moved a recess. Ach saying that he could not get through with the examination for some time yet.

"There will be no recess at this time," said Judge Dunne. "We will stay here until you do get through with him."

There comes a time when a medicine is needed to tone up the system and it is then that she will appreciate a few doses of the famous

HOSTETTER'S STOMACH BITTERS

TO EVERY WOMAN

The entire country is graft-mad. What is graft, anyway? The dictionary does not give me any satisfaction—at least not about the "graft" everybody is talking about.

I have some thoughts about graft. Quite often one man is jealous of another and he contemptuously refers to him as a grader. Again, one man sees another taking advantage of a good opportunity and he calls him a grader; jealousy again.

To graft is to acquire and there are unlimited opportunities to rightfully acquire here in Oakland.

Still again, much of what is called graft should be bluntly called "stealing."

To be fitted into one of the bony faultless suits would be ideal grafting of you to the suit.

And the price would be so far removed from grafting that you would be justified in saying that it is good graft.

So, after all, "graft" is as you take it—and that's no joke, though it sounds like one.

HELLO GIRLS STAMP THEIR FEET AND SAY "NO!"

Oakland Operators Resist the Allurements of San Francisco Girls Lately Discharged and Declare Their Intention to Remain at Their Places.

SAN FRANCISCO, May 1.—The telephone operators in the employ of the Pacific States Telephone and Telegraph Company sent their demands by special delivery to the office of the management of the telephone company this morning and are awaiting a reply. If this reply is not forthcoming by the time that the operators meet tomorrow evening, they will vote to walk out and will not attempt a compromise nor will they submit to any compromise suggested by the company. The demands that they have sent in, they feel, are just and they do not feel that they should compromise.

The demands asked for are that the operators employed for the first three months should receive a salary of \$30, and for those who stay in through the second three months a salary of \$35. After nine months the demands ask that the operators be paid a salary of \$40, and that after one year they receive the same salary as paid all the older operators. This salary is \$50 per month. They also ask for a reduction of hours. They have refused to arbitrate the matter. Their demands are not just. They are simply doing their best to drive the trade out of the country."

DON'T DISCIPLINE GIRLS.

"We have no objection whatever to any association among our employees that is for their protection. We desire to do all in our power for the good of the service, and realize that it would be poor policy to have a lot of discontented, disgruntled employees."

In the demands it is specifically requested that the male supervising operators be removed and the women operators once more put in their places at a salary of \$75 per month. They also ask that the companies install comfortable chairs at the switchboard instead of the present stools, which make it very difficult to reach the board. This they say is responsible, on a great many occasions, for the making of mistakes in numbers.

"There will be no strike among the telephone girls of Oakland, even though a lot of trouble-makers are trying their best to get us to do so. We girls have been waylaid to and from our work pestered and annoyed in every conceivable way by a lot of people with whom we would not associate, who are trying to use us to further their own selfish aims," declared Miss Davies, one of the operating room in the Oakland office of the Pacific Telephone and Telegraph Company this morning.

AIR WAS FULL OF FEATHERS LOCAL POLICE WERE BUNKED

Henry is a Rare Bird When it Comes Down to Rough and Tumble Scrapping.

SAN JOSE, May 1.—The air was full of feathers at the ostrich farm this afternoon, when one of the older birds, named "F. J. Henry," because of his combative tendencies, attacked by a strange coincidence the two rare, black feather ones, known as "Rue" and "Schmitz." It appears that Rue and Schmitz, only ten months old, tried to enter a corral in which were Henry's two mates, "Carrie Nation" and "Nellie Bly." Henry proceeded to show both intruders that they could not enter his domain unless specially invited. Rue was the first one to feel the weight of his mighty foot, and when Schmitz bit him, Henry promptly butted him out. For nearly twenty minutes the three great birds fought, and the blows had the velocity and strength of a trap-hammer.

"Mag," the colored attendant, rushed in to separate the combatants, and with a mighty kick Henry landed him on the other side of the fence. Finally sufficient help was summoned and Henry was corralled in a corner of the pen, where he was held until the damaged and badly wounded Rue and Schmitz were taken to the hospital for repairs.

FRESNO PAPER CHANGES HANDS

Raisin City Evening Democrat Said to Have Brought \$20,000.

FRESNO, May 1.—The bankrupt Evening Democrat has been purchased by C. H. Frisk and W. F. Frisk, the former of the Pasadena Star and the latter from the Grass Valley Union. No purchase price has been stated, but it is thought the sum is high enough to give the new proprietors the right to take charge of the paper until Aug. 1st. Meantime it will continue to be run by the assigned, C. T. Kearny.

The debt of the Evening Democrat is \$50,000. Among the stockholders are several prominent politicians of the State and well-known capitalists. This debt will be paid off by the stockholders and just the manner of settling has not been made known. Already the new purchasers are negotiating for the purchase of larger plant and every indication points to the building of a first-class evening paper in Fresno.

Astonishing Things Done

W. A. Sherman, who lives at 469 Tenth street, appears to be an extra ordinary person among his ordinary, unenthusiastic followers who are not at all restricted in their claims as to what he is able to do. If report has it correctly, this Sherman assuredly has remarkable powers, which are deserving of careful consideration and investigation.

Most thinking people acknowledge that there are many things we do not understand about ourselves. Most people will admit that the contortionist man is a genius, being "capable of astonishing acts under proper stimulus." It is unreasonable to deny the existence of certain powers of wonderful capacity. Obviously then, it is the duty of every intelligent person to investigate these things with a view of determining the extent and manner of manifestation of these powers.

It is said that tests have been devised making it absolutely impossible for any person of whatsoever nature to be affected.

Truthfully, people aver these things. In this event then, is it not wise that the intelligent people of Oakland and vicinity take this matter up in earnest and determine for themselves these facts? Surely the matter is of sufficient importance to justify the earnest thought of every person. Here are laws which are supposed to be inviolate, turned upside down as it were, and utterly ignored by this mysterious man.

Sherman has time and again looked into Nevada, Arizona and other distant places, and traced beds of ore deep down in the ground, without apparent effort; and, indeed, without getting into a "trance" or indulging in other modus operandi so generally indulged in by those who claim similar powers. Give Sherman a chance, give a place of person's property, whereabouts to establish rapport, and it is said he can trace the entire history of the object with astonishing fidelity. Certainly these things merit the conscientious attention of students and intelligent persons.

MY BEST FRIEND.—Alexander Weston, who lives on Rural Route 1, Fort Alexander, N. Y., says: "Dr. King's New Discovery is my best earthly friend. It cured me of asthma 10 years ago. This same person, who is a confirmed case of incipient consumption to my son's wife. The first bottle ended the terrible cough and this accomplished, the other symptoms left off by one, just as with me. I am well. Dr. King's New Discovery's power over coughs and colds is simply marvelous." No other remedy has ever equaled it. Fully guaranteed by Dr. King's New Discovery and available at 25¢ a bottle. Trial bottle free.

TUMORS CONQUERED

Overwhelming Proof that Lydia E. Pinkham's Vegetable Compound Succeeds.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy Tumor.

The growth of a tumor is so insidious that frequently its presence is wholly unsuspected until it is well advanced.

So called "wandering pains" may

come from its early stages or the presence of danger may be made manifest by excessive monthly periods accompanied by unusual pain, from the abdomen through the groin and thigh.

If you have mysterious pains, if there are indications of inflammation or displacements, secure a bottle of Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, right away and begin its use.

The following letters should convince every suffering woman of its virtue, and that it actually does conquer tumors.

Mrs. May Fry, of 836 W. Colfax Ave., South Bend, Ind., writes:

Dear Mrs. Pinkham:

"I take great pleasure in writing to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me. I also took the Blood Purifier in alternate doses with the Compound. Your medicine removed a cyst tumor of four years' growth which three of the best physicians declared I had. They had said that only an operation could help me. I am very thankful that I followed a friend's advice and took your medicine. It has made me a strong and well woman and I shall recommend it as long as I live."

Mrs. E. F. Hayes, of 26 Ruggles St., Boston, Mass., writes:

Dear Mrs. Pinkham:

"I have been under different doctors' treatment for a long time without relief. They told me I had a fibroid tumor, my abdomen was swollen and I suffered with great pain. I wrote to you for advice, you replied and I followed your directions carefully and today I am a well woman. Lydia E. Pinkham's Vegetable Compound expelled the tumor and strengthened my whole system."

Mrs. Perry Byers, of Mt. Pleasant, Iowa, writes:

Dear Mrs. Pinkham:

"I have been under different doctors' treatment for a long time without relief. They told me I had a fibroid tumor, my abdomen was swollen and I suffered with great pain. I wrote to you for advice, you replied and I followed your directions carefully and today I am a well woman. Lydia E. Pinkham's Vegetable Compound expelled the tumor and strengthened my whole system."

Mrs. Pinkham's Invitation to Women.

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass., for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law, Lydia E. Pinkham in advising. Thus she is especially well qualified to guide sick women back to health.

RENTER IN ARREARS
UPHELD BY COURTS.

SACRAMENTO, May 1.—A ruling by the Superior Court of Madera county in the matter of Annie F. Leigh, plaintiff and appellant, versus S. Arms defendant and respondent, was upheld by the court of appeal of the third appellate district today. The appellant alleges that in August, 1904, she leased a house to Arms for the term of one year at the monthly rental of \$35, plus a sum of \$100 each month. On January 10, 1905, she demanded that Arms pay \$175, the amount of rent still to be paid or a sufficient possession to three days. Arms refused and was put out in the trial which ensued. Plaintiff then appealed but has lost again. Justice Burnett wrote the opinion affirming judgment and order of the lower court.

Craving for Drink
Destroyed

The best aid to temperance is something that will strengthen the drunkard's weakened nervous system and cure his unnatural craving for drink. We believe that the best way to do this is to desire to be cured of the liquor habit on the part of self by using Orlane. This remarkable discovery has made so many cures among our customers that we are glad to sell it until a physician guarantees to refund the money if it does not cure.

SOMETHING GOOD

\$20,000

Here is an elegant southeast corner on Telegraph, elegant locality; 2 stories and 5 flats; in A1 condition. This property brings in an income of \$22 per month, and is an A1 investment. It is better than bank interest at the present time and must certainly increase in value.

\$3150

Here is a cottage of 5 rooms; brand new; in the Santa Fe tract; gas and electric light; modern, bath, and a nice lot.

\$3000

Modern 5-room cottage with high cement basement; stationary tubs; north side of 3rd st. near Telegraph ave.; \$1650 cash will handle it.

An elegant site for an apartment house or flats; we have an elegant southeast corner on Grove, 100 or 150 feet front and 120 feet deep. This is a nice terraced lot, good neighborhood and is certainly a bargain; we will subdivide this into residence lots; it is an A1 buy and worthy of investigation.

Do you want a nice cottage—\$1000 and \$1500 down and balance like rent? We have them and will be pleased to show them to you.

\$11,500

The best semi-business place on the market today is \$5500 on the south side of 20th, bet. San Pablo and Telegraph, containing 5 good cottages paying interest on this price now. Stores placed under would make this big interest payer at small outlay.

\$6500

Reduced from \$7500 for an immediate sale. Linden st., bet. 8th and 10th; 55x100, with an A1 having a good barn and stable. A very comfortable home of 10 rooms and bath, or excellent for remodeling into flats or apartments.

\$1800

Two dollars for one is what is offered in this lot, 30x100, between Broadway and the lake and north of 7th st. Can you buy anything else in this district for less than \$100 per foot?

A. J. Snyder's Piedmont Terrace By The Lake

Is without a peer for a beautiful location for a home, situated on the low, rolling hills of the Piedmont range, affording the delightful combination of a perfect climate, and yet being adjacent to beautiful Lake Merritt, which lies in the very heart of the city. Two car lines, the Grand avenue and the Oakland avenue lines, afford transportation from the center of Oakland in seven minutes' ride, while by Key Route San Francisco is but thirty-five minutes distant. The prices in this most beautiful tract are astonishingly low, only half what is being asked for property no more desirable. Think of a beautiful lot with the best surroundings for only \$1000, including the street work and sidewalk which is now being done.

Oakland's Newest and Best Music Store

A short sketch of the H. Hauschildt Music Company, which is one of the most enterprising music houses in Oakland will not come amiss at this time. Our firm first established piano warehouses at Twelfth and Grove Streets. A nice business was soon built up through the exceptional values given. But the location was a trifle too far removed from the shopping district. It was also too small so a larger and finer store was secured at 1159 Franklin Street, in the new State Savings Bank building opposite the Nat'l Gage depot.

This new store comprises two floors, has a frontage of 75 feet and a depth of 100 feet. The upper floor is utilized as a piano saleroom while the first floor is furnished with a complete line of small musical goods. The phonograph department comprises a full line of Edison Victor and Zoro phonograph machines, complete stock of records, etc. are on the floor.

Numbered among the pianos in stock are the HENRY F. MILLER, SHONINGER, NEWMAN BROS, RADLE, STODDART, BIDDLE, DUNHAM, DRAPER AND IRVING. We also carry the wonderful Electric Con. Operated Standard Piano. This is the only instrument of its kind which has given general satisfaction in places of public amusement.

It is but natural interest to call and investigate our bargains offered in slightly used pianos which have been received in exchange for the many self playing pianos sold since we opened our new store.

These pianos consist of ONE WEBER, beautiful mahogany case only, used one year \$300. ONE HEINIE, oak case Colonial style as good as new \$165. ONE FISCHER, mahogany in good condition \$175. ONE LUDWIG, piano case \$185. ONE STODDART in rich dark wood \$165.

ONE RADLE, used only two months \$210. ONE NEW ENGLAND, first class condition \$150. ONE DECKER & SONS \$128. ONE SELF PLAYING PIANO which cost \$250 taken in exchange for an Electric Piano to be delivered out at \$450.

Several other bargains which we have not space to mention and which must be sold to make room for large shipments which are now due to arrive. Terms to suit purchaser can be arranged on any of the above instruments. Don't put it off but call it once.

UNEARTH BONES OF GIGANTIC ANIMAL

ALTOONA, Pa., May 1.—The bones of a gigantic prehistoric animal which were unearthed a few days ago by a blast in the McLinnigan limestone quarry are being examined by Professor O. A. Peter of the Carnegie Institute of Pittsburgh.

The bones lay in the limestone formation fully thirty feet below the surface of the earth and are of various sizes. They show that the mastodons were immense the thigh bone being more than ten and one-half inches in diameter and the joint 11-1/2 inches in diameter. The professor theorizes the bones are those of a grown animal and its young.

In the collection are a few small tusks which the scientist believes belong to cave bears. He is also of the opinion that there was a cave where the quarry is now situated that the animals died in it and the rock had since formed over the bones. The bones will be taken to the Carnegie Institute.

MILLIONS ARE NOW IN SIGHT

M. J. Laymance Returns From a Trip to the Mines.

M. J. Laymance returned today from a trip over Tonopah and Goldfield Nevada. Mr. Laymance spent several days in Goldfield looking over the mining situation there. All the mines and leas are now in active operation and the richness of the camp in the mines have not been equaled in the history of the country. The coming year will see millions of dollars taken out from the mines that have already made rich strikes. There are hundreds of leas with wells with galleys, frames working all over the camp and as they reach the river level the public will be continually hearing of rich strikes.

The Lucky Swede Mining Company of which Mr. Laymance is President has a lease on the Keeyas Mine also on the Atlanta Hill shaft on the Atlanta Hill mountain 900 feet of the rich strike made a few days ago on the Atlanta Mine.

The hotel accommodations in Goldfield are very limited but a prominent banker told Mr. Laymance that within the next sixty days the new hotels now under construction will be finished and they would equal at least two thousand rooms.

OLD SOLDIERS MEET AFTER MANY YEARS

WINSTED, Conn., May 1.—John F. Simmons, Past Commander of Palmer Post, G. A. R., recently received the biggest and pleasantest surprise in his life, he says, when Oldbridge Messenger of Winsted, a brother of Mr. Simmons' first wife, walked into his office and introduced himself without recognizing the other.

The man had not met since the battle of Danville, La., on July 13, 1863, when they fought in the same brigade. Mr. Messenger was a member of the Twenty-fifth Connecticut Volunteers and Mr. Simmons the Thirteenth.

WOULD PUT "TREATING" UNDER BAN OF LAW

PHOENIX, Ariz., May 1.—In the council of the Maricopa introduced a bill prohibiting what is commonly known as treating and puts a stop to one person's buying a drink for another under penalty as a misdemeanor.

Plunk's local option bill providing that a majority vote only is necessary instead of two-thirds as heretofore to wipe out saloons in any community passed the chamber by a vote of 10 to 1. His legislation measure was passed by the same vote.

The council also passed the juvenile court bill providing that children under 12 years of age who are incorrigible shall pass under a period of probation before being committed to the reform school.

WILL PLAY SAPHO

Olga Nethersole will please take no notice—there are other Saphos. The 1907 variety will be represented by Mme. Batha Kalleh and biting in clinches, wading stars and police interference, barbs Harrison Grey Fiske take.

The responsibility of the latest Sapho who historically rated Mrs. Hyde Fiske's hector heroine by many centuries. Her play, "Sapho," will be presented at the Shubert and Pitkin and it will be well.

The council also passed the juvenile court bill providing that children under 12 years of age who are incorrigible shall pass under a period of probation before being committed to the reform school.

DR. PIERCE'S FAVORITE PRESCRIPTION

For nursing mothers or for those broken down in health by too frequent bearing of children also for the expectant mothers, to prepare the system for the coming of baby and make it adjust easy and almost painless there is no medicine quite so good as "Favorite Prescription."

It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthens nerves, nicely adapted to a woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.

Bad Symptoms The woman who has periodical headaches, backache, sees many dark spots or specks floating in dancing before her eyes has gnawing distress or heavy full feeling in stomach, it spells, dragging down easily in lower abdominal or pelvic region, easily startled or excited irregular or painful periods, with or without pelvic catarrh, is suffering from weakness and derangements that should have early attention. Not all of above symptoms are likely to be present in any case at one time.

Neglected or badly treated and such cases often run into varieties which demand the surgeon's knife if they do not eat fatality.

No medicine extant has such a long and numerous record of cures in such cases as Dr. Pierce's Favorite Prescription.

No medicine has such a strong professional endorsement of each of its several ingredients—worth more than any number of ordinary non professional testimonials. The very best ingredients known to medical science for the cure of woman's peculiar ailments enter into its composition. No alcohol.

GLORIES IN POSITION AS PROSECUTOR OF ABE RUEF

Attorney Johnson Makes Sharp Retort to
Ach---Slow Progress in
Obtaining Jurors.

SAN FRANCISCO, May 1.—Toward the close of the Ruef case yesterday afternoon in Judge Dunne's court, Attorney Johnson was goaded into stating that he gloried in the position in which he appeared as special prosecutor of the defendant.

"I would rather," he said, his flushed face and determined manner showing that he had been deeply moved, "appear for the State than for any rogue that took a bribe." "I would rather prosecute a boodler and a scoundrel any day than to receive money from a man who has made it by selling out his native city."

Ach, of counsel for the defense, had provoked the outburst by referring in a sneering manner to Johnson as a special prosecutor and, after Johnson had resumed his seat, counsel for the defendant arose and asked the court to instruct the jurymen already sworn to try the case to disregard what Johnson had said.

Judge Dunne said that the jury, at the proper time, would be given the proper instructions.

Ach took an exception.

Of the fifty men summoned by Elmer Bixby the names of only nineteen were placed in the circular jury box, as follows: Milton Auerbach, 1538 Post street; Belmore Brissac, 2124 California street; J. E. Bier, 2302 China street; Ed W. Brown, 9 Fifth avenue; Frank B. Bentler, 1832 Filbert street;

COLORADO MAN ENDS HIS LIFE

MAKES SISTER PRAY TWO DAYS

Wealthy Centennial State Resident Commits Suicide at San Diego.

SAN DIEGO, May 1.—Amos J. Anderson, member of a prominent family of Colorado Springs and a guest at Coronado Hotel for the past three weeks, committed suicide yesterday afternoon at about 1 o'clock at a point on the beach two miles below the hotel and some distance southeast of the site of Tent City. Mr. Anderson was about the hotel in the morning and a little before noon was at Tent City watching the workmen arrange the resort for summer visitors. From there he walked along the beach and apparently placed the muzzle of an automatic gun in his mouth and pulled the trigger. Death was almost instantaneous.

Anderson was about forty years of age. He had been left a fortune by his father and had been prominent in mining circles in Cripple Creek, where he owned and superintended several mines. Pasadena and Coronado have been his favorite winter homes and he has been a guest of a San Diego visitor. When the Goldfield excitement began he went there with other Cripple Creek men, and it is understood their investments were not all profitable.

FIGHTING FOR

THEIR RIGHTS

Nevada Farmers to Resist Efforts of Government Officers in Collecting Money.

RENO, Nev., May 1.—The Secretary of the Interior of the United States has refused to recognize the contracts made by the government's agents in Churchill county when the surveys were being made for the Truckee-Carson reclamation project, and has refused to allow the original landowners water for their lands now under cultivation unless they pay a maintenance rate of 40 cents per inch per acre every year.

These large farmers held valuable water rights along the Carson and have constructed dams and ditched to irrigate their lands. The government's agents signed articles with them to allow water for the land then under cultivation free of charge, and now under cultivation free of charge.

Attorneys for the farmers have demanded that the rights be restored to the farmers and allow the government to construct waterways on their land.

In view of this the farmers refuse to pay the maintenance rate and have engaged attorneys in an attempt to reach a settlement with the government. If no settlement can be reached, the case will be taken into court. Should the case be lost thousands of acres will become waste.

Attorneys for the farmers have taken up the complaint of the farmers with the government, and have so far been rejected by the federal officials. They were promised one inch of water for every acre of land under cultivation free.

NINE JURORS.

When the court adjourned Edward examination. At that time nine jurors had been accepted and two telegrams ashad been issued to the court. The names of Henry A. Harvey, Belmore Brissac, and D. P. Crane were drawn from the box. Harvey was passed by both sides.

Crane, of the Kleckerbocker Quartet, was excused because he was not on the last assessment roll.

Then the names of Frank R. Beutler and Edward W. Brown were taken out of the box.

Beutler was challenged for bias by the defense. The challenge was not allowed by the prosecution and the disallowal was sustained by the court.

ONE GOOD TURN DESERVES ANOTHER

Customaryunction Will Be Held at Idora Park TThis Evening.

The rooms of the Chamber of Commerce will be closed this evening to the public owing to the annual banquet of the chamber at Idora Park. It is customary to open the rooms on Wednesday evenings that all who desire may see the elegant exhibit of Alameda county products. The banquet this evening at 7 o'clock will unquestionably eclipse anything of the kind ever held in Oakland. The list of speakers includes many of the most prominent men in the State and the theme is one that will interest all. Over nine hundred will be present.

The committee in charge of the entertainment is urging all to wear business suits. The banquet tickets will admit to the park without extra pay.
